(54) Title: METHOD FOR DETERMINING ENDOGLYCOSIDASE ENZYME ACTIVITY

(57) **Abstract:** The invention relates to a method for determining endoglycosidase enzyme activity, and in particular of the heparanase type, in a sample, and also to a method for detecting a compound capable of modulating the activity of an endoglycosidase, and in particular of an endoglycosidase having activity of the heparanase type, by measuring a signal resulting from a close proximity transfer between two compounds attached to a substrate for the enzyme.
